ABDELRHMAN HANY SAYED

Address: Cairo, Egypt
Mobile: 01063902738
E-mail: bodyhany457@gmail.com
LinkedIn: linkedin.com/in/abdelrhmanhanyy

Professional Summary:

Computer Science and Artificial Intelligence student with a strong foundation in programming, problem-solving and Machine Learning. Hands-on experience in data preprocessing, feature engineering, and developing machine learning models. Passionate about AI, ML, and Deep Learning, with a strong interest in building intelligent solutions to real-world problems. Seeking an AI/ML internship to apply technical skills and gain practical experience.

Education:

Bachelor of Computer Science & AI, Capital University (Helwan) **(Oct 2024 – present)**
Cumulative GPA: 3.05 / 4.00 (Very Good)

Work Experience:

AI & Machine Learning Trainee at Route Academy **(Jul 2026 – Present)**

- Studying Machine Learning and Deep Learning concepts through practical training.
- Applying ML algorithms and model evaluation techniques in hands-on projects.

Data Engineering Trainee at Digital Egypt Pioneers Initiative (DEPI) **(Nov 2025 – Jul 2026)**

- Completed intensive training in data engineering, covering SQL, Python, ETL processes, data warehousing, and cloud data fundamentals.
- Built hands-on projects involving data pipelines, data integration, and database management using industry-standard tools and best practices.
- Strengthened analytical, problem-solving, and data-processing skills through practical assignments and real-world case studies.

Projects:

Egypt Food Price Monitor | Data Engineering

- Developed an automated system for collecting, processing, and analyzing food prices using Python, Selenium, SQL Server, and Power BI.

GitHub: https://github.com/beshoy-shohdy/Food_Price_Monitoring

Smart Urban Parking System | Full-Stack Development

- Developed a multi-role web application for managing parking spaces, reservations, payments, and violations using PHP and MySQL.

GitHub: https://github.com/nourelfeky/Smart-Urban-Parking-System

E-Commerce Clothing Store | Front-End Development

- Built a responsive online clothing store with user authentication, product browsing, and shopping cart functionality using HTML, CSS, and JavaScript.

GitHub: https://github.com/hamzaaaa-12/IT-project1

Project Management System | Java

- Developed a role-based application for managing employees, teams, projects, and tasks using Java and OOP principles.

GitHub: https://github.com/hamzaaaa-12/OOP_project1

Government Agency Digital HQ | Network Design

- Designed and simulated a secure enterprise network using Cisco Packet Tracer, implementing VLANs, routing, DHCP, NAT, and VPN.

Courses:

- Problem Solving – Level 2 (Data Structures & Algorithms Basics) – Coach Academy (Oct 2025)
- Problem Solving – Level 1 (Basics) – MSP (Jul 2025)

Skills:

Technical Skills

- **Programming Languages:** C, C++, Java, Python
- **AI & Machine Learning:** Machine Learning, Deep Learning, Data Preprocessing, Feature Engineering, Model Evaluation, Neural Networks, Transfer Learning
- **Data Engineering:** SQL Server, SSIS, SSAS, Data Warehousing, Airflow
- **Data & Analytics:** Pandas, NumPy, Exploratory Data Analysis, Power BI
- **Web Development:** HTML, CSS, JavaScript
- **Concepts:** OOP, Data Structures & Algorithms, Digital Logic Design, Networking Fundamentals

Soft Skills

- **Core Strengths:** Problem Solving, Communication, Teamwork

Languages:

- **English** – Intermediate (B1)
- **Arabic** – Native
